Crops For Communities

GrainFlow's Crops for Communities - nominate your charity!

During these unprecedented times, we understand that helping local communities is vital. We wanted to let you know that in 2020 our Crops for Communities program is back!

We will donate \$1 for every tonne committed to a GrainFlow site to a charity of your choice.

The program is open until October 1st, 2020 and applies to contracts with AWB as well as other buyers. We respect there is production risk involved in committing physical grain ahead of harvest, please consider this before determining your level of involvement.

To participate, complete the application form below with your nominated charity details;
