

## Introducing GrainFlow's Crops for Communities - nominate your charity!

To kick off the 2019/20 season, we are launching a new community program for GrainFlow customers. Cargill will donate \$1 for every tonne you commit to a GrainFlow site to a charity of your choice. The program will apply to contracts with AWB as well as other buyers.

The program is open between 1 June and October 1, 2019. We respect the production risk involved in committing physical grain ahead of harvest so please consider your comfort levels before determining your involvement.
